CHAPTER 1: INTRODUCTION

The Drug Free Schools and Campuses Regulations (34 CFR Part 86) of the Drug-Free Schools and Communities Act of 1989 (DFSCA) require an institution of higher education (IHE) such as Palmer College of Chiropractic to certify it has adopted and implemented programs to prevent the illicit use of drugs and the abuse of alcohol by its students and employees both on its premises and as a part of any of its activities. The term “College” as used throughout this report refers to the entire unit of Palmer College of Chiropractic, including operations on the Davenport, Iowa, campus; the San Jose, California campus; and the Port Orange, Florida, campus.

At a minimum, each institution of higher education must annually distribute the following in writing to all students and employees:

- Standards of conduct that clearly prohibit the unlawful possession, use, or distribution of illicit drugs and alcohol by students and employees;
- A description of the legal sanctions under local, state, or federal law for the unlawful possession or distribution of illicit drugs and alcohol;
- A description of any drug or alcohol counseling, treatment, or rehabilitation programs that are available to students or employees; and
- A clear statement that the institution will impose sanctions on students and employees and a description of those sanctions, up to and including expulsion or termination of employment and referral for prosecution, for violations of the standards of conduct.

The College acknowledges its obligation to conduct a biennial review of compliance with the Drug Free Schools and Communities Act and authorized an administrative review to be conducted to determine if the College fulfills the requirements of these Federal regulations. The intention of this document is to meet the legal requirements of conducting a biennial review and summarize the programs and activities related to alcohol and drug prevention on the Palmer College of Chiropractic’s three campuses between 2018 and 2019. The biennial review has following objectives:

- Determining the effectiveness of the policy and implementing changes to the alcohol and other drug programs if they are needed;
- Ensuring that the sanctions developed are enforced consistently;
- Determining the number of drug-and alcohol-related violations and fatalities occurring on the College campus or as part of College activities that are reported to College officials; and
- Determining the number and types of sanctions the College imposes on students or employees as a result of such violations or fatalities.

The following College departments provide information for the biennial report:

- Student Services Department
- Safety and Security Department
- Office of Compliance

CHAPTER 2: COMPLIANCE WITH THE DRUG-FREE SCHOOLS AND COMMUNITIES ACT

Palmer College of Chiropractic is committed to maintaining an environment conducive to the intellectual and personal development of students and to the safety and welfare of all members of the College community. - Provide information about available intervention, evaluation, referrals, and treatment services.

The College continues to comply with the requirements of the Drug-Free Schools and Communities Act and has adopted and implemented programs to prevent the abuse of alcohol and use or distribution of illicit drugs by its students and employees as demonstrated by this biennial review. CONFIDENTIALITY

The College shall maintain the confidentiality of the information they receive, except where disclosure is required by law, policy or is necessary to facilitate legitimate College processes, including the investigation and resolution of allegations.

The identity of participants in an investigation shall be maintained in confidence subject to the same limitations above.

Individuals who have reported questionable behavior or who have initiated or participated in the complaint procedures available are advised their identity may be known for reasons beyond the control of college officials or investigators.

REPORT CONTENT AND ANONYMITY

Because of the inherent difficulty in investigating and resolving allegations that are vague or from unidentified persons, the College encourages individuals to provide full information and identify themselves when making reports of improper conduct. However, should the College receive a generalized or anonymous report; such a report will be reviewed and investigated to the extent feasible.

Anonymous reports may be made online at: [Lighthouse Services](#)

RETALIATION

The College strictly prohibits retaliation or reprisal of any kind against an individual who has reported, attempted to report or provided information regarding potential violations of this policy or who has initiated or participated in the complaint procedures available or has otherwise been involved in the process of responding to, investigating or addressing allegations reported to the College.

Any person who attempts either directly, indirectly or through someone acting on another's behalf to intimidate, threaten, retaliate, interfere with, restrain, coerce, discriminate against, violate a College *No Contact Directive* or harass any person for reporting, attempting to report, or pursuing a complaint, or is a witness cooperating in a College investigation will be addressed by the College.

Allegations of retaliation shall constitute separate grounds upon which a complaint may be raised under this policy.

REPORTING FALSE CLAIMS

Any individual who makes a false report or claim under this policy shall be subject to disciplinary action up to and including termination.

INVESTIGATIONS

The College may determine an allegation of noncompliance with this policy requires an investigation. No one other than the appointed investigator will be allowed to conduct an investigation on behalf of the College. The College may impose any appropriate measures on an interim basis where there is a reasonable cause to believe that such action is needed for the health, safety or welfare of members of the College community or to avoid disruption to the

work/educational environment. Such measures may include student suspension or employee administrative leave pending the outcome of an investigation.

VIOLATION OF LAW AND COLLEGE POLICIES

Noncompliance with the College's policies includes any behaviors covered under applicable laws. Individuals engaging in illegal activities may subject themselves to both College discipline and individual criminal penalties under the law.

Disciplinary proceedings may be instituted against an individual whose conduct potentially violates both the criminal law and the College's policies (that is, if both possible violations result from the same factual situation) without regard to the pendency of civil or criminal litigation. Proceedings under this policy may be carried out prior to, simultaneously with, or following a civil or criminal proceeding at the discretion of the Chief of Compliance or designee. Determinations made, or disciplinary actions imposed under this policy shall not be subject to change solely because criminal charges arising out of the same facts giving rise to violation of the College's policies were dismissed, reduced or resolved in favor of or against the criminal law defendant.

When a student or employee is charged by federal, state or local authorities with a violation of law, the College will not request or agree to special consideration for that individual because of his or her status as a student or employee with the College. If the alleged offense is also being addressed under College policy, the College may advise legal authorities of the existence of the College's policies and how such matters are typically handled within the College processes.

AMENDMENT OF POLICY

The College reserves the right to amend this policy from time to time as the interest of the College may require.

Alcohol Use at College Events (Student Clubs and Activities Handbook)

Written approval must be obtained at least 20 business days prior to the scheduled event from the following:

Guidelines: The following guidelines will govern all student events where alcoholic beverages are available:

- The abuse of alcohol will not be tolerated at any College event.

- All persons of legal age to consume alcoholic beverages must be identified by a hand stamp (or other method of identification approved by the relevant College official above at all campus events and activities where alcoholic beverages have been approved, to be served.)
- Outside organizations sponsoring events in the Palmer Alumni Auditorium where alcoholic beverages are served, must require proper proof of age, (a photo ID) and utilize an approved method of identifying persons eligible to consume alcoholic beverages; i.e., hand stamps, wristbands, etc.

- Security professionals or police officers must be employed and on the premises during all events where alcoholic beverages are served. The number of security professionals or police officers required will be based on projected attendance.
- Club and organization funding requests cannot be used to purchase alcohol on or off College premises. This includes any clubs budgeted under Student Services.

Alcohol cannot be purchased and distributed free of charge to members of any club or organization on College premises. There are no exceptions to this unless prior written approval is obtained from the relevant College official above or the event is a College-wide event.

All student clubs and organizations registered by the College and third parties allowed to use College facilities must adhere to these guidelines. Any club or organization found to be in violation of the rules in this document may face suspension or loss of recognition as a College club or organization. Disciplinary action up to and including dismissal may be taken against individuals who are members of a club or organization found to be in violation.

Students Convicted of Possession or Sale of Drugs (Federal Student Aid (FSA) Handbook)

A federal or state drug conviction (but not a local or municipal conviction) can disqualify a student for FSA funds. The student self-certifies in applying for aid that he is eligible; you are not required to confirm this unless you have conflicting information.

Convictions only count against a student for aid eligibility purposes (FAFSA question 23c) if they were for an offense that occurred during a period of enrollment for which the student was receiving federal student aid—they do not count if the offense was not during such a period, unless the student was denied federal benefits for drug trafficking by a federal or state judge (see drug abuse hold sidebar). Also, a conviction that was reversed, set aside, or removed from the student's record

does not count, nor does one received when the student was a juvenile, unless the student was tried as an adult.

The chart below illustrates the period of ineligibility for FSA funds, depending on whether the conviction was for sale or possession and whether the student had previous offenses. (A conviction for sale of drugs includes convictions for conspiring to sell drugs.)

TABLE 1: PERIOD OF INELIGIBILITY FOR FSA FUNDS AFTER CONVICTION

	Possession of Illegal Drugs	Sale of Illegal Drugs
1 st Offense	1 year from date of conviction	2 years from date of conviction
2 nd Offense	2 years from date of conviction	Indefinite period
3+ Offenses	Indefinite period	

If the student was convicted of both possessing and selling illegal drugs, and the periods of ineligibility are different, the student will be ineligible for the longer period. Schools must provide each student who becomes ineligible for FSA funds due to a drug conviction a clear and conspicuous written notice of his loss of eligibility and the methods whereby he can become eligible again.

A student regains eligibility the day after the period of ineligibility ends (i.e., for a 1st or 2nd offense); or when he or she successfully completes a qualified drug rehabilitation program that includes passing two unannounced drug tests given by such a program. Further drug convictions will make the student ineligible again.

Students denied eligibility for an indefinite period can regain eligibility after completing any of the following 3 options:

- Successfully completing a rehabilitation program, as described below, which includes passing two unannounced drug tests from such a program);
- Having the conviction reversed, set aside, or removed from the student’s record so that fewer than two convictions for sale or three convictions for possession remain on the record; or
- Successfully completing two unannounced drug tests which are part of a rehab program (the student does not need to complete the rest of the program).

In such cases, the nature and dates of the remaining convictions will determine when the student regains eligibility. It is the student’s responsibility to certify to you that he/she has successfully

completed the rehabilitation program; as with the conviction question on the FAFSA, you are not required to confirm the reported information unless you have conflicting information.

When a student regains eligibility during the award year, you may award Pell Grant, TEACH, and Campus-Based aid for the current payment period and Direct Loans for the period of enrollment.

Standards for a qualified drug rehabilitation program.

A qualified drug rehabilitation program must include at least two un-announced drug tests and satisfy at least one of the following requirements:

- Be qualified to receive funds directly or indirectly from a federal, state, or local government program.
- Be qualified to receive payment directly or indirectly from a federally or state-licensed insurance company.
- Be administered or recognized by a federal, state, or local government agency or court.
- Be administered or recognized by a federally or state-licensed hospital, health clinic, or medical doctor.

If you are counseling a student who will need to enter such a program, be sure to advise the student of these requirements. If a student certifies that he has successfully completed a drug rehabilitation program, but you have reason to believe that the program does not meet the requirements, you must find out if it does before paying the student any FSA funds.

Incarcerated Students

A student is considered to be incarcerated if he/she is serving a criminal sentence in a federal or state penitentiary, prison, jail, reformatory, work farm, or similar correctional institution (whether it is operated by the government or a contractor). A student is not considered to be incarcerated, and is still potentially eligible for Pell, FSEOGs and FWS, but not Direct Loans, if he/she is in a halfway house, juvenile justice facility, a local or county jail, a local or county penitentiary or correctional facility, or is subject to home detention or is sentenced to serve only weekends. You may accept the student's written self-certification that he/she is no longer incarcerated.

Excerpts from the Student Code of Ethics (Student Handbook)

Article III: Jurisdiction of the Student Code of Ethics

The Code shall apply to conduct that occurs on College premises or at College-sponsored or College-related activities or service functions on or off College premises or at non-College activities on or off College premises that adversely affects the College Community and/or the pursuit of its objectives. This includes online activities. Each student shall be responsible for his/her conduct from the time of application for admission through the actual awarding of a degree, even though conduct may occur before classes begin or after classes end, as well as during the academic year and during periods between terms of actual enrollment (and even if their conduct is not discovered until after a degree is awarded). The Code shall apply to a student's conduct even if the student withdraws from school while a disciplinary matter is pending.

The Code shall also apply to behavior occurring online, such as harassment delivered by email, or acts of bullying or discrimination posted in video form or on gossip sites accessed through College computing resources. Students must also be aware that information posted to blogs, webpages, social networking sites such as Twitter and Facebook, or other online postings are in the public sphere, and are not private. These postings can subject the student to a charge of misconduct, if information supporting or constituting misconduct is posted online. The College does not regularly monitor online activities but may take action if and when such information is discovered.

Article IV: Violation of Law and Student Code of Ethics

While the activities covered by the laws of the larger community and those covered by College rules may overlap, it is important to note that the community's laws and the College's rules operate independently and that they do not substitute for each other. The College may pursue enforcement of its own rules whether or not legal proceedings are underway or in prospect, and may use information from third party sources (such as law enforcement agencies and the courts) to determine whether College rules have been broken.

Proceedings may be instituted against a student charged with misconduct that potentially violates both the criminal law and this Code (that is, if both possible violations result from the same factual situation) without regard to the pendency of civil or criminal litigation.

Proceedings under this Code may be carried out prior to, simultaneously with, or following a civil or criminal proceeding at the discretion of the Coordinator.

Determinations made, or sanctions imposed under this Code shall not be subject to change because criminal charges arising out of the same facts giving rise to violation of College rules were dismissed, reduced or resolved in favor of or against the criminal law defendant.

When a student is charged by federal, state, or local authorities with a violation of law, the College will not request or agree to special consideration for that individual because of his or her status as a student.

If the alleged offense is also being processed under the Code, the College may advise legal authorities of the existence of the Code and of how such matters are typically handled within the College community.

Article V: Reporting Violations of Local, State or Federal Law

Students are expected to abide by local, state, and federal laws. Any student who has been convicted of; pled guilty to; did not contest; forfeited bail; or was granted a deferred judgment to any criminal conduct under law or ordinance is to notify the institution. Such notification should be made in writing to any of the following within five calendar days:

DAVENPORT CAMPUS

WEST CAMPUS

Michael Crump, M.Ed., Director of Student Services
90 E. Tasman Drive, San Jose, CA 95134
(408) 944-6122
michael.crump@palmer.edu

This notification requirement excludes only minor traffic violations. Failure to promptly report may result in disciplinary action up to and including dismissal.

The institution may refer any student found in violation of local, state, or federal law for prosecution. Any student referred for prosecution may be subject to legal action in addition to disciplinary action initiated by the institution. Such legal action may include criminal charges that can limit an individual's ability to obtain a license to practice chiropractic in certain states.

Article VI: Misconduct – Rules and Regulations (excerpt)

The headings (such as A. Alcohol and Drugs) appearing in Article VI are for convenience only and are not a part of the Code and do not in any way limit or amplify the term “misconduct.” Misconduct may include any of the following, which is not intended to be an exhaustive list:

Part I. General

1. Use, possession, manufacturing, or distribution of drugs of abuse including, but not

limited to, solvents; hallucinogens; narcotics; depressants; stimulants; or other controlled substances except as expressly permitted by law.

- Unauthorized disclosure of confidential information;
- Violation of Staff Handbook provisions, University System Board Policy or College practices or procedures;

- Inappropriate attire, as previously determined in consultation with the supervisor;
- Unsatisfactory performance and/or other unacceptable conduct.

The preceding examples do not constitute all possible employee conduct issues and in no manner create a contractual agreement in the employment relationship.

Employees failing to meet College conduct and/or performance standards or expectations may be subject to corrective action up to and including termination of employment.

CORRECTIVE ACTION

Palmer takes corrective action as appropriate to address unacceptable performance or conduct exhibited by an employee. Such action is taken in consideration of the severity and circumstances of the problem. While the practice of Palmer is to implement corrective action in a progressive fashion, the College reserves the right to take any corrective action deemed appropriate up to and including termination of employment regardless of the existence of prior progressive action.

Corrective action may include but is not limited to the following:

- **Verbal Consultation** – This form of corrective action involves a discussion between the employee and supervisor to clarify expectations, review rules, procedures, and practices, and identify areas of performance and/or behavior, which require improvement. Verbal consultations may be followed by a written memo that is retained for future reference of the discussion, as necessary.
- **Written Warning** – Written warnings specify performance and/or behavior issues that require immediate and on-going correction. Written warnings are reviewed with, acknowledged by the employee, and become part of the official personnel file.
- **Suspension** – Employees with on-going or initially serious performance and/or behavior issues may be suspended from work. Suspensions may be with or without pay. Suspensions with pay are generally referred to as a “decision day.” A “decision day” is to provide the employee the opportunity to decide whether they wish to continue employment with Palmer West. An employee is expected to return from a “decision day” with a written improvement plan or resignation letter.
- **Termination** – Employees who have received previous corrective action or whose infractions are severe enough to warrant immediate dismissal may be terminated with or without pay in lieu of notice.

PROBLEM RESOLUTION

In the interest of enhancing positive employee relations, Palmer College of Chiropractic attempts to maintain an objective, equitable and consistent process for the resolution of work-related problems.

The College provides both informal and formal processes for prompt consideration of staff problems. Reasonable attempts are made to reach mutual understanding and resolution of matters presented by employees. Confidentiality of the individuals and issues involved is maintained to the greatest extent possible. Confidentiality is maintained in a manner consistent with the objectives of preventing future problems, allowing involved individuals to respond to complaints and participate in the resolution process, as well as attempting to resolve issues in the best manner possible.

Many work-related problems are the result of misunderstandings or misconceptions that can be satisfactorily resolved through informal processes. Informal avenues for problem resolution provide staff members the opportunity to discuss concerns with their immediate supervisor and/or individuals progressively through the applicable chain of command. Staff members may also bring their concerns or problems to the attention of Human Resources in an attempt to resolve them informally.

In those situations where the informal resolution process has not been successful and for matters involving a violation, misinterpretation, misapplication or unreasonable application of policy, procedure, rule, practice or regulation regarding the employee's employment conditions, a staff member may submit formal complaints, in writing, to the Senior Director of Human Resources through the Human Resources office. Formal complaints are addressed according to established resolution procedures.

Complaints regarding matters of unlawful discrimination/ harassment are to be submitted to the Senior Director of Human Resources through the Human Resources office. Complaints of this nature are addressed according to separate established resolution procedures.

The College prohibits retaliation or reprisal against an employee who has initiated either informal or formal resolution procedures.

CHAPTER 4: THE DANGERS OF DRUG & ALCOHOL USE

As explained further below, the use of illicit drugs and the abuse of alcohol adversely affect the health of the individual. Such use or abuse also puts the individual at risk for penalties imposed by the College, up to and including suspension or termination. No one is immune to chemical dependency and the only way to prevent addiction to drugs or alcohol is through either total abstinence or controlled use. Before you use drugs or alcohol, learn the facts.

Health Risks Associated with the Abuse of Alcohol and Illicit Drugs

Alcohol: Alcohol consumption causes a number of marked changes in behavior. Even low doses significantly impair the judgment and coordination required to drive a car safely, increasing the likelihood that the driver will be involved in an accident. Low to moderate doses of alcohol also increase the incidence of a variety of aggressive acts, including spouse and child abuse. Moderate to high doses of alcohol cause marked impairments in higher mental functions, severely altering a person's ability to learn and remember information. Very high doses cause respiratory depression and death. If combined with other depressants of the central nervous system, much lower doses of alcohol will produce the effects just described.

Repeated use of alcohol can lead to dependence. Sudden stopping of alcohol intake is likely to produce withdrawal symptoms, including severe anxiety, tremors, hallucinations, and convulsions. Alcohol withdrawal can be life threatening. Long-term consumption of large quantities of alcohol, particularly when combined with poor nutrition can also lead to permanent damage to vital organs such as the brain and the liver.

Mothers who drink alcohol during pregnancy may give birth to infants with fetal alcohol syndrome. These infants have irreversible physical abnormalities and mental retardation. In addition, research indicates that children of alcoholic parents are at greater risk of becoming alcoholics than other youngsters.

Following is a list of common symptoms associated with alcohol use. If you have any of these symptoms, or know of someone on campus who does, please talk to the Substance Abuse Counselor about getting help.

- Alcohol odor on breath and clothes
- Slurred speech
- Loss of coordination
- Sleeping more than usual or at odd times
- Physical complaints like morning nausea, headache, “wooly” mouth, fatigue, thirst

- Memory loss

Illicit Drugs: The harmful effects of illicit drugs vary from substance to substance. The following is a summary of the effects of a number of such substances by category:

- **Narcotics:** Repeated use of narcotics, such as opium, morphine, and heroin, results in an increasing tolerance; the user must administer progressively larger doses to attain the desired effect, leading to dependence. Possible effects of the use of narcotics include euphoria, drowsiness, respiratory depression, constricted pupils, and nausea. Effects of overdose include slow and shallow breathing, clammy skin, convulsions, coma, and possible death. Withdrawal may lead to watery eyes, runny nose, yawning, and loss of appetite, irritability, tremors, panic, cramps, nausea, chills, and sweating.
- **Depressants:** Depressants, including barbiturates (e.g., Phenobarbital and Valium) and chloral hydrate have a potential for abuse associated with both physical and psychological dependence. The effect may vary from person to person and from time to time in the same individual. Low doses produce mild sedation while higher doses, as far as they relieve anxiety or stress, may produce a temporary sense of well-being; they may also produce mood depression and apathy. Higher doses also result in impaired judgment, slurred speech, and loss of motor coordination, disorientation, and the potential for dependence. The effects of overdose include shallow respiration, clammy skin, dilated pupils, weak and rapid pulse, coma, and possible death. Withdrawal may lead to anxiety, insomnia, and possible death.
- **Stimulants:** Use of stimulants, such as cocaine, methamphetamine and amphetamines, may lead to a temporary sense of exhilaration, an excess of energy, hyperactivity, excessive wakefulness, and a loss of appetite. They may also lead to irritability, anxiety, and apprehension. These effects are greatly intensified with administration by intravenous injection, which may produce a sudden sensation known as a "flash" or "rush". The protracted use of stimulants is followed by a period of depression known as "crashing." Long-term use can lead to brain damage. The effects of overdose include agitation, increase in body temperature, hallucinations, convulsions, and possible death. The effects of withdrawal include apathy, long periods of sleep, irritability, depression, and disorientation.
- **Hallucinogens:** Hallucinogens, including LSD, peyote, and mescaline, distort the perception of objective reality. They induce a state of excitation of the central nervous system, shown by alterations of mood, usually euphoric, but sometimes seriously depressive. Other effects include hallucinations and poor perception of time and distance. Effects of overdose include longer, more intense "trip" episodes, psychosis, and possible death.
- **Cannabis:** There are three drugs that come from cannabis, or hemp, that are distributed in the United States: Marijuana, hashish, and hashish oil. The effects vary from individual to individual. Marijuana is considered a "gateway" drug that may lead to the use of other illicit

drugs. Low doses of these drugs tend to induce restlessness and an increasing sense of well-being, followed by a dreamy state of relaxation, and often hunger. Changes in perception may lead to disorientation. Overdose may lead to fatigue, paranoia, and possible psychosis. Withdrawal may lead to insomnia, hyperactivity, and decreased apathy.

- Steroids: Anabolic steroids are synthetically produced variants of the naturally occurring male hormone testosterone that are abused in an attempt to promote muscle growth, enhance athletic or other physical performance, and improve physical appearance. Testosterone, nandrolone, stanozolol, methandienone, and boldenone are some of the most frequently abused anabolic steroids. Steroid use can cause dramatic mood swings, increased feelings of hostility, impaired judgment, and increase levels of aggression. When users stop taking steroids, they may experience depression. Anabolic steroid use may also cause psychological dependence and addiction. A wide range of adverse effects is associated with the use or abuse of anabolic steroids. In boys, steroid use can cause early sexual development, acne, and stunted growth. In adolescent girls and women, anabolic steroid use can cause deepening of the voice, increased facial and body hair growth, menstrual irregularities, male pattern baldness, and lengthening of the clitoris. In men, anabolic steroid use can cause shrinkage of the testicles, reduced sperm count, enlargement of the male breast tissue, sterility, and an increased risk of prostate cancer. In both men and women, use can cause high cholesterol levels, which may lead to the risk of coronary artery disease, strokes, and heart attacks. Anabolic steroid use can also cause acne and fluid retention. Oral administration of anabolic steroids can damage the liver. Abusers who inject steroids also run the risk of contracting various infections due to non-sterile injection techniques, sharing of contaminated needles, and using steroids manufactured in non-sterile environments.

CHAPTER 6: DRUG & ALCOHOL RELATED SERVICES

Substance Abuse Resources and Assistance

The College recognizes that substance abuse is a significant public health problem. Further, the College recognizes that drug and alcohol abuse can be successfully treated and is committed to helping employees and students who suffer from these problems, while holding them responsible for their own recovery. Thus, the College offers both employee and student assistance programs for employees, students and their dependents.

Employees and students who recognize they may have a drug-or alcohol-related problem are encouraged to seek help for substance abuse issues before a policy violation and corrective action becomes necessary. Student or employee eligibility for individuals voluntarily requesting assistance in the diagnosis and/or treatment for substance abuse will not be jeopardized by College officials if the student or employee requests diagnosis and/or treatment for his/her substance abuse concerns.

Federal Alcohol Laws

Congress has the power to regulate importing and taxing alcoholic beverages. Also, the primary Federal law governing alcohol policy is the 21st Amendment, which repealed national prohibition. It also gives the individual states control over:

- Whether to allow sale of alcohol in the state
- Whether to allow importing alcohol into the state
- How to distribute alcohol throughout the state
- Possession of alcohol in the state

Even with this flexibility for the states, Congress retains the power to promote certain alcohol policies, such as the minimum legal drinking age. The Federal Uniform Drinking Age Act of 1984 sets the minimum legal drinking age to 21 and every state abides by that standard. According to this Act, the Federal government can withhold 10% of Federal funding for highways from states that do not prohibit people under age 21 from buying or publicly possessing any alcoholic beverage. While every state abides by this standard, state law varies on specifics about possession and exceptions to the law, such as allowing people under 21 to drink with their parents. CHAPTER 9: STATUTES GOVERNING ALCOHOL AND ILLICIT DRUGS: DAVENPORT CAMPUS

State of Iowa Statutes on Alcohol Use

Students and employees at the Palmer College of Chiropractic campus at Davenport, Iowa, who use alcoholic beverages, are subject to the alcoholic beverage laws of the State of Iowa, contained in Chapter 123 of the Code of Iowa, which are as follows:

- **Purchase, Consumption, or Possession of Alcohol by a Minor:** An individual less than 21 years of age may not purchase or attempt to purchase nor legally consume alcoholic beverages (including wine and beer) in public. A violation of the above is a simple misdemeanor punishable by a fine of \$200.00 for the first offense. Second and subsequent offenses are serious misdemeanors punishable by a fine of \$500.00 and suspension of driving privileges for a period not to exceed one year. However, if the person is less than 18 years of age, the violation shall be referred to the Juvenile Justice System under Iowa Code Chapter 232. No person shall sell, give or otherwise supply alcoholic beverages to any individual less than 21 years of age. A violation by a person of legal age is a serious misdemeanor punishable by a minimal fine of \$500.00. If the result of supplying alcoholic beverages to a minor results in serious injury or death, the supplier of the alcoholic beverage commits an aggregated misdemeanor of class "D" felony, respectively.
- **Public Intoxication:** An individual shall not use or consume alcoholic beverages (including wine or beer) in any public place not covered by a liquor license. A person shall not be intoxicated (or pretend to be intoxicated) in a any public place. A person violating this provision is guilty of a simple misdemeanor with imprisonment not to exceed 30 days or a fine of at least \$65.00, not to exceed \$625.00; or both.
- **Sale of Alcoholic Beverages without a License:** The sale or resale of alcoholic beverages is prohibited by Iowa law unless the seller possesses a valid license or permit.
- **Driving while Intoxicated:** A person commits the offense of operating while intoxicated if the person operates a motor vehicle in this State either while under the influence of an alcoholic beverage or other drug or a combination of such substances or while having an alcohol concentration of .10 or more. A first offense is a serious misdemeanor and is punishable by all of the following: jail for up to one year, a fine up to \$1,250.00, revocation of driving privileges and license for a minimum of 180 days, and assignment to substance abuse evaluation and treatment, a course for drinking drivers, and reality education substance abuse preventative program. A second offense, an aggregated misdemeanor, is punishable by up to two years in prison. A minimum of seven days in jail must be served. A fine of not less than \$1,875.00 nor more than \$6,250.00. A third and each subsequent offense, a Class "D" felony is punishable by imprisonment up to five years. A minimum of 30 days in jail

must be served. A fine of not less than \$3,125.00 nor more than \$9,375.00.
