Employment Application Process

1. The College does not discriminate on the basis of a disability in the employment application process.

2. Any information concerning an applicant's disability provided during the selection process is on a voluntary or optional basis. The College maintains this information

solely for the purpose of its affirmative action efforts in providing equal employment opportunity to individuals with disabilities.

3. No limitations will be placed on the number or proportion of persons with disabilities who may be employed.
4. When assessing the qualifications of any applicant, relevant factors including education, training, skills, work experience, and any other pertinent information that the applicant supplies are considered.
5. After selection for employment, the College invites and encourages voluntary self-identification by individuals with disabilities for purposes of verifying the disability and identifying the reasonable accommodations that the College may provide to the employee. The College strives to determine the accommodations to be provided before the self-identifying employee begins employment in an effort to have accommodations in place when the employee commences work.

Training and Development Programs

Employees with disabilities shall have the opportunity to participate in the College's training and development programs and activities if they qualify for such programs.

Performance Evaluations

To the extent necessary to accommodate an employee with a particular disability, and to the extent deemed reasonable and consistent with the essential job functions and expectations, performance evaluations, and other procedures for evaluating an employee's successful job performance will be adapted and administered so as to minimize the effect of the disability and accurately measure the employee's performance of the essential job functions.

Benefits

In providing employee benefits to qualified individuals, the College may not provide lesser benefits, limit eligibility for benefits, or otherwise discriminate on the basis of disability.

Physical Location of Work Stations

The location of workstations within the physical plant will provide equal access to mobility and/or visually impaired employees to the extent reasonably possible. The College will strive to incorporate principles of barrier free design in the renovation of existing buildings or facilities.
