### CRITICAL APPRAISAL

<b>Are the results of the study valid?</b>	
Did the review explicitly address a sensible question?	
Was the search for relevant studies detailed and exhaustive?	

Were the primary studies of high methodologic quality?	
Were the assessments of the included studies reproducible?	
<b>What are the results?</b>	
What are the overall results of the study?	
How precise are the results?	
Were the results similar from study to study?	

Strength of Evidence:

How does this apply to your patient?
